

NOTICE OF A PROPOSAL
to Engage in a Renewable Energy Project
AND NOTICE OF PUBLIC MEETINGS
To be held by International Power Inc. regarding the proposal

Project Name: Bluewater Wind Project

Project Location: The project is located on approximately 3387 hectares of land, in an area bounded by Huron Concession #2 in the south, Lake Range Drive on the west, Huron Concession #8, and Side Road #5 on the east. The wind farm will be connected by overhead transmission lines, heading north on Sideroad 20 through the Municipality of Kincardine, before turning west on either Concession 8 or Concession 6, where they will connect to the existing transmission lines near Bruce Power.

Dated at the Township of Huron-Kinloss this the 5th day of July 2010.

International Power Inc. is planning to engage in a renewable energy project in respect of which the issuance of a renewable energy approval is required. The distribution of this notice of a proposal to engage in this renewable energy project and the project itself are subject to the provisions of the *Environmental Protection Act (ACT)* Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 15 of the Regulation prior to an application being submitted and assessed for completeness by the Ministry of the Environment.

Meeting Locations:

For those residents of the Twp of Huron-Kinloss
August 10th, 2010 5:30pm – 8pm
Ripley Community Centre
17 Queen Street, Ripley,

For those residents of the Municipality of Kincardine
August 11th, 2010 5:30pm – 8pm
Davidson Centre
601 Durham St., Kincardine

Project Description:

Pursuant to the Act and Regulation, the facility, in respect of which the project is to be engaged in, is a Wind Energy Facility, Class IV. If approved, this facility would have a total maximum name plate capacity of 125 MW. The project location is described in the key map.

Documents for Public Inspection:

The Draft Project Description Report titled Bluewater Wind Farm – REA Project Description Report describes the project as a grouping of large scale wind turbines, connected by a series of underground and overhead cables which will connect at a location point to Hydro One's energy distribution system. A written copy of the Draft Project Description Report is available for public inspection at www.iprcanada.com.
