

NOTICE OF COMPLETION OF AN ENVIRONMENTAL SCREENING REPORT/ENVIRONMENTAL IMPACT STATEMENT

Plateau Wind Project

AIM PowerGen is proposing to construct a wind power project in the Municipality of Grey Highlands and the Township of Melancthon. The Plateau Wind Project will consist of three, 9 MW, Siting Areas [Plateau 1 (Maxwell), Plateau 2 (Hatherton), and Plateau 3 (Shrigley)] with a total of up to 18 wind turbines (six within each Siting Area) and a nameplate capacity of 27 MW. Electricity from the wind turbines will be carried via buried cable to existing or new power lines within municipal roadways and then to existing local 44 kV distribution lines.

AIM PowerGen retained Stantec Consulting Ltd. (Stantec) to prepare the Environmental Screening Report/Environmental Impact Statement (ESR/EIS) as required under Ontario Regulation 116/01 of the Environmental Assessment Act. The ESR/EIS has been completed as required for a "Category B" project under the Ministry of the Environment's screening process, outlined in their "Guide to Environmental Assessment Requirements for Electricity Projects" (March 2001) (EA Guide). AIM PowerGen has also worked with the appropriate federal agencies to ensure the Project meets the requirements for a Screening-level study under the Canadian Environmental Assessment Act.

In compliance with Ontario Regulation 116/01, the ESR/EIS is being made available for a 30-calendar day review period from **12 June 2009 through to 11 July 2009**. Copies of the ESR/EIS may be reviewed during this time at the following public locations:

- | | | |
|--------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| – Municipality of Grey Highlands

Kimberley Memorial Hall
Grey Road 13, Kimberley, ON | |

The ESR/EIS may also be viewed on the Project website: www.aimpowergen.com. For consideration, **AIM PowerGen must receive all comments regarding the ESR/EIS no later than 4:30pm on 11 July 2009**. All comments and correspondence should be sent to:

Mark Kozak
Stantec Consulting Limited
70 Southgate Drive, Suite 1
Guelph, Ontario, N1G 4P5
Email: plateauwind@stantec.com
Fax: (519) 836-2493

As per the process outlined in the EA Guide, stakeholders should first attempt to resolve any outstanding issues with AIM PowerGen during the 30-calendar day review period. In the event that issues cannot be resolved with AIM PowerGen during the review period, the concerned party may make a written request to the Director of the MOE's Environmental Assessment and Approvals Branch at the address noted below, to elevate the Project to either an Environmental Review or Individual Environmental Assessment. A copy of the elevation request must also be sent to AIM PowerGen, c/o Stantec, at the address noted above.

Director of Environmental Assessment and Approvals Branch
Ministry of the Environment
2 St. Clair Avenue West, Floor 12A
Toronto, Ontario
M4V 1L5

Elevation requests must be made in accordance with the provisions set out in the MOE's EA Guide and be received by the MOE's Director of the Environmental Assessment and Approvals Branch and AIM PowerGen **no later than 4:30pm on 11 July 2009**.
